Forced Focus - The essence of attracting and retaining the best people is an extraordinary business book for all employers to help them develop a distinctive employment brand that ensures they find the right staff - and keep them. The first resource tool on this emerging concept in a climate of excessive job swapping and lost loyalty, it teaches employers why they need to place as much emphasis on internal branding as they do on external branding. With insightful and proven strategies, Forced Focus challenges thinking and offers innovative and achievable solutions to make employer brands irresistible. Key issues include why people change jobs and the explosion of choice, leadership, engaging the workforce, the power of training and making your brand relevant and true. Unlike many in the business genre, this beautifully presented book features 208 full colour pages of creative concepts to inspire and ignite employers, while filling them with confidence and a path forward. Forced Focus is full of international statistics on the labour force market and worldwide implications of the skills shortage.
